

Healthcare / Medical Preparedness

Connect facility and coalition preparedness, incident coordination, resources, continuity, meetings, decisions, handoffs and recovery.

Why this matters

Healthcare response crosses facilities, coalitions, public health, EMS, emergency management, vendors and continuity teams. Vanguard VEM can connect operational coordination while keeping clinical and regulated systems in their proper roles.

Designed for

Healthcare coalitions, hospitals, clinics, preparedness programs, emergency managers, continuity teams and authorized medical-response partners.

What users can do

- Coordinate facilities, coalition partners, meetings and preparedness actions.
- Track resource requests from need through sourcing, assignment, release and closeout.
- Preserve decisions and shift/position handoffs with acknowledgment.
- Use readiness evidence and Operational Assurance to identify coordination gaps.

Current connected operating layer

Connected capability	Recovery 35.6 operating layer
Operational Assurance	Universal Needs Attention queue plus Executive / Command Brief from permission-visible records.
Decisions, Handoffs & Meetings	Structured decision logs, acknowledged shift/position handoffs, and meeting actions that persist until closed.
Resource Lifecycle & Readiness	Resource requests from request through closeout, plus credential/qualification evidence and readiness warnings.
Plan-to-Operation & Schedule	Activate approved plans into trackable actions; schedule routine, preparedness, training, exercise, recovery and incident meetings.
GIS/COP, Live Intelligence & ICS	Map-first COP, source-aware intelligence, position workspaces, standardized forms and automated incident documentation.
Instructions, Training & Sandbox	Affected guidance, training and practice paths are synchronized with the current build and support controlled user learning.

Vanguard VEM is not an EHR, clinical decision system or replacement for HICS/agency requirements. Protected health information should only be handled under approved policy and configuration.
