

Tribal Emergency Management

Emergency-management coordination that keeps Tribal authority, AOI context, governance, partners, plans, and operational work visible.

Why this matters

Tribal emergency management requires the same speed and accountability as any emergency program while respecting sovereignty, government-to-government relationships, local governance, cultural resources and information-sharing decisions.

Designed for

Tribal emergency managers, Tribal leadership, public safety, health, public works, planning, cultural-resource staff and authorized partners.

What users can do

- Maintain Tribal AOI and governance context through workflows and reports.
- Coordinate decisions, handoffs, resources and partner actions without losing authority context.
- Activate approved plans into controlled operational actions.
- Use readiness and credential evidence without overriding Tribal qualification policy.

Current connected operating layer

Connected capability	Recovery 35.6 operating layer
Operational Assurance	Universal Needs Attention queue plus Executive / Command Brief from permission-visible records.
Decisions, Handoffs & Meetings	Structured decision logs, acknowledged shift/position handoffs, and meeting actions that persist until closed.
Resource Lifecycle & Readiness	Resource requests from request through closeout, plus credential/qualification evidence and readiness warnings.
Plan-to-Operation & Schedule	Activate approved plans into trackable actions; schedule routine, preparedness, training, exercise, recovery and incident meetings.
GIS/COP, Live Intelligence & ICS	Map-first COP, source-aware intelligence, position workspaces, standardized forms and automated incident documentation.
